Let's help each other out. Have something hanging around the house that you just can use or don't want anymore. Why not list it with us. Maybe someone in the group could save some \$\$\$\$\$\$ by taking it off your hands or trading something for it.

Let's get the information out there.  
I'm sure we could all use a chance at saving some \$\$\$\$\$\$  
Contact me and I will put it in our next newsletter:  
Sandy Fiddler , 928-680-9431, or ontheroof@frontiernet.net

**I will be collecting items for the western humane society. I will pick any of the items up from your home, or you can drop them off at the house. Call me to make arrangement for pick up:  
Sandy 928-680-9431**

- Towels, Blankets, Paper Towels,
- dog and puppy food, dog treats,
- cat and kitten food, cat litter,
- Play toys
- Laundry soap, bleach, large garbage bags
- White copy paper, colored paper

**Weed Control**

If you are still in need of having some weed control done, our friend Tim Campbell has his own business. While he usually does most of his work in CA with the farmers and their horrible problem with pesky flies, he also sprays for weed control. He has done our yard for many years, and for those of you who have been to our house, know that weeds just are not a problem here. If you are interested please call Tim, at cell # 928- 230-1719, or his home # of 928-764-1868. Tim lives in Havasu Heights and does most of this type of spraying on the weekends. Tell him A.G. and Sandy told you to call.

**FROM THE MOTORCYCLE SAFETY FOUNDATION.**

THINK ABOUT THESE THINGS THE NEXT TIME YOU ARE PLANNING TO CARRY A PASSENGER.

1. Passengers should be considered as a second "active" rider so they can help ensure that safety and procedural operations are correctly followed.
2. A passenger will affect the handling characteristics of a motorcycle due to the extra weight and independent motion.
3. A passenger tends to move forward in quick stops and may "bump" your helmet with theirs.
4. Starting from a stop may require more throttle and clutch finesse.
5. Braking procedures may be affected. Braking sooner and/or with greater pressure may be required.
6. More weight over the rear tire may increase the usefulness and stopping power of the rear brake, especially in quick stop situations.
7. Riding on a downgrade will cause braking distance to increase.
8. Extra caution is called for in a corner because of the extra weight.
9. Cornering clearances may be affected.
10. More time and space will be needed for passing.
11. The effects of wind, especially side wind, may be more pronounced.

This is a picture taken while waiting the arrival of the Viet Nam Veterans Memorial Wall that is now on display in Lake Havasu City. Our group GWRRA AZ- C "Dry Heat Riders" was a part of the event to escort the wall into town and down Main Street in the parade to honor our Veterans. Many members of our chapter have family or friends who's name appears on the wall. We were a part of over 200 motorcyclists that took part in the escort. Many on the motorcyclists are veterans of Foreign Wars, Viet Nam and retired. The "Patriot Riders" were also involved in the escort as well as many other groups. It seemed like the entire city was involved either by lining the parade route or by participation in some way. In many ways this event was so emotional that it is hard to describe the feelings that everyone involved either witnessed or felt. We all are really glad and feel privileged that we were asked and wanted to participate.
